Nimbus Systems Remote Work Policy

1. Eligibility

Employees who have completed their three-month probation period may work remotely up to two days per week, with their manager's approval.

Roles that require physical presence, such as reception and facilities, are not eligible.

2. Equipment and Internet

The company provides a laptop, headset and one external monitor for home use. Employees working remotely receive a monthly internet allowance of 150 SAR, paid with salary.

3. Security When Working Remotely

You must connect through the company VPN when accessing internal systems from outside the office. Do not work on confidential documents in public places such as cafes, and never use public computers to access company email.

4. Working From Abroad

Working from another country requires written approval from HR and is limited to 10 working days per year, because of tax and legal rules.
